

## Potencial das estimativas de IWV da rede GNSS-SP na avaliação de modelos de PNT usando o SCAMTEC

**Apresentador: Paulo Henrique Diniz Dias**  
**Graduação: Ciência da Computação**  
**MBA: Tecnologia da Informação**

Envolvidos: Luiz Fernando Sapucci,  
João Gerd, Lucas Amarante

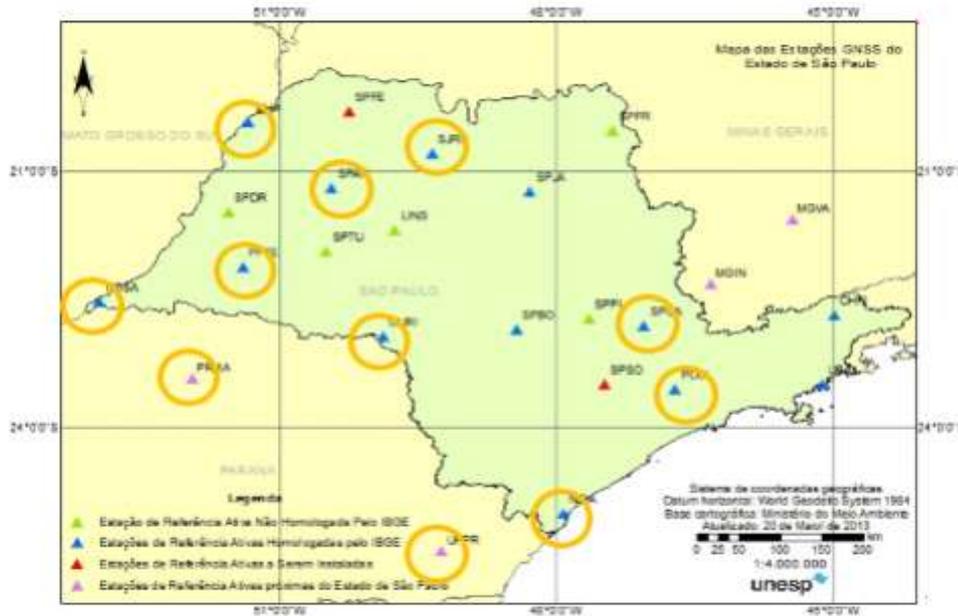

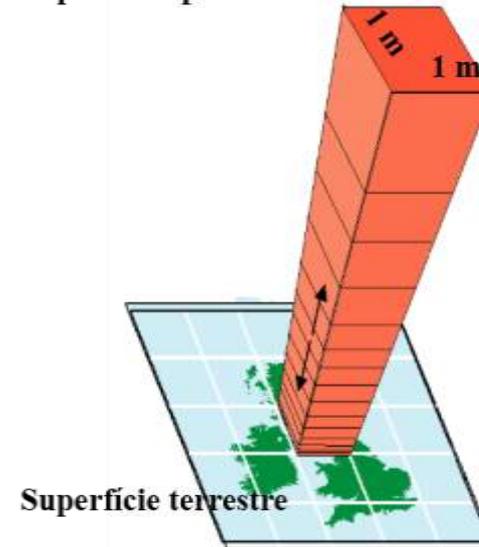

[WWW.CPTEC.INPE.BR](http://WWW.CPTEC.INPE.BR)

- Importância de avaliar Precipitação
  - Onde vai Chover?
  - Quanto vai Chover?
  - Que horas vai Chover?

O IWV (*Integrated Water Vapor*) é o valor do vapor d'água integrado na coluna atmosférica. A assimilação desse tipo de observação pode corrigir a distribuição da umidade no modelo e trazer impactos positivos nas previsões de precipitação.

• EOF1 (Em desenvolvimento)

$$EM(\alpha) = \frac{1}{I \cdot J} \sum_{i=1}^I \sum_{j=1}^J (\alpha_{i,j}^I - \alpha_{i,j}^J)$$

- **RMS** Bolsista Paulo Dias

$$RMS(\alpha) = \frac{1}{N} \sum_{n=1}^N \left[ \frac{1}{I \cdot J} \sum_{i=1}^I \sum_{j=1}^J (\alpha_{i,j,n}^P - \alpha_{i,j,n}^O)^2 \right]^{1/2}$$

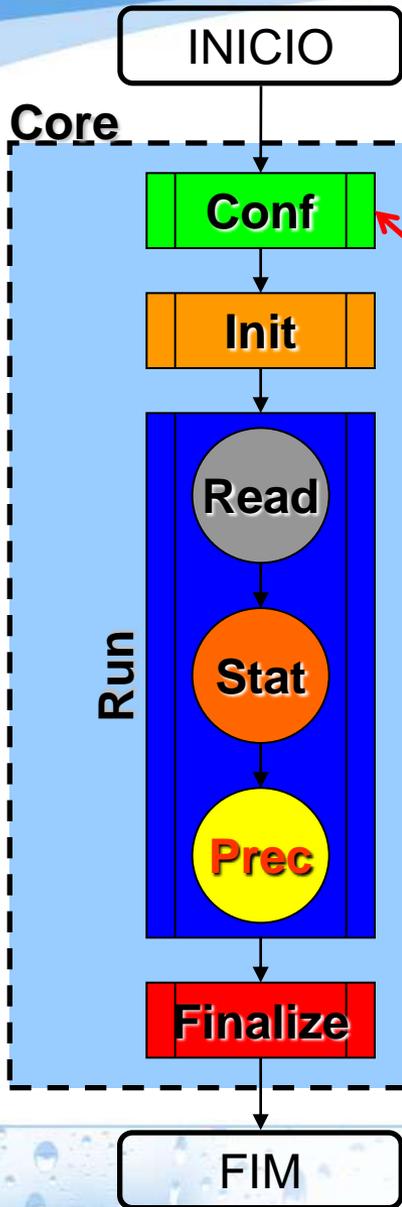

Luiz F. Sapucci

Enver Ramirez

$$|\Delta V| = \frac{1}{I \cdot J} \sum_{i=1}^I \sum_{j=1}^J [(u_{i,j}^P - u_{i,j}^O)^2 + (v_{i,j}^P - v_{i,j}^O)^2]^{1/2}$$

- **Correlação de Anomalia**

$$ACC = \frac{\sum_{i=1}^I \sum_{j=1}^J [(\alpha_{i,j}^P - \alpha^C) \cdot (\alpha_{i,j}^A - \alpha^C)]}{\left\{ \left[ \sum_{i=1}^I \sum_{j=1}^J (\alpha_{i,j}^P - \alpha^C)^2 \right] \left[ \sum_{i=1}^I \sum_{j=1}^J (\alpha_{i,j}^A - \alpha^C)^2 \right] \right\}^{1/2}}$$

## Mascara para nome

- %y4 substitui ano
- %y2 a 2 digitos
- %m1 a 1 or
- %m2 a 2 digi
- %mc a 3 letter month in lower
- %Mc a 3 le
- %MC a 3 le
- %d1 a 1 or
- %d2 a 2 digi
- %h1 a 1 or
- %h2 a 2 digit hour
- %h3 a 3 digit hour (?)
- %n2 a 2 d

MODULE SCAM_Modelplugin
  USE m_agcm
  USE m_clima50yr

  IMPLICIT NONE
  /BOP
  /
  /MODULE: SCAM_Modelplugin
  /
  /DESCRIPTION:
  / The code in this file provides values of indices used to
  / to register functions in the plugin modules
  /
  / The index definitions are simply a convention
  / The user may change these options, and the scamtec.conf
  / should be changed appropriately to ensure that the correct function
  / is called at run time
  /
  / This module contains, also, the definition of the functions used
  / for open the numerical models states to use for evaluatin an other
  / relevant computations using the models, corresponding to each of
  / the Model used in scamtec.
  /
  /REVISION HISTORY:
  / 25 Oct 2011   J. G. de Mattos  Initial Specification

## 1. Precipitação

- Histograma de Freqüência

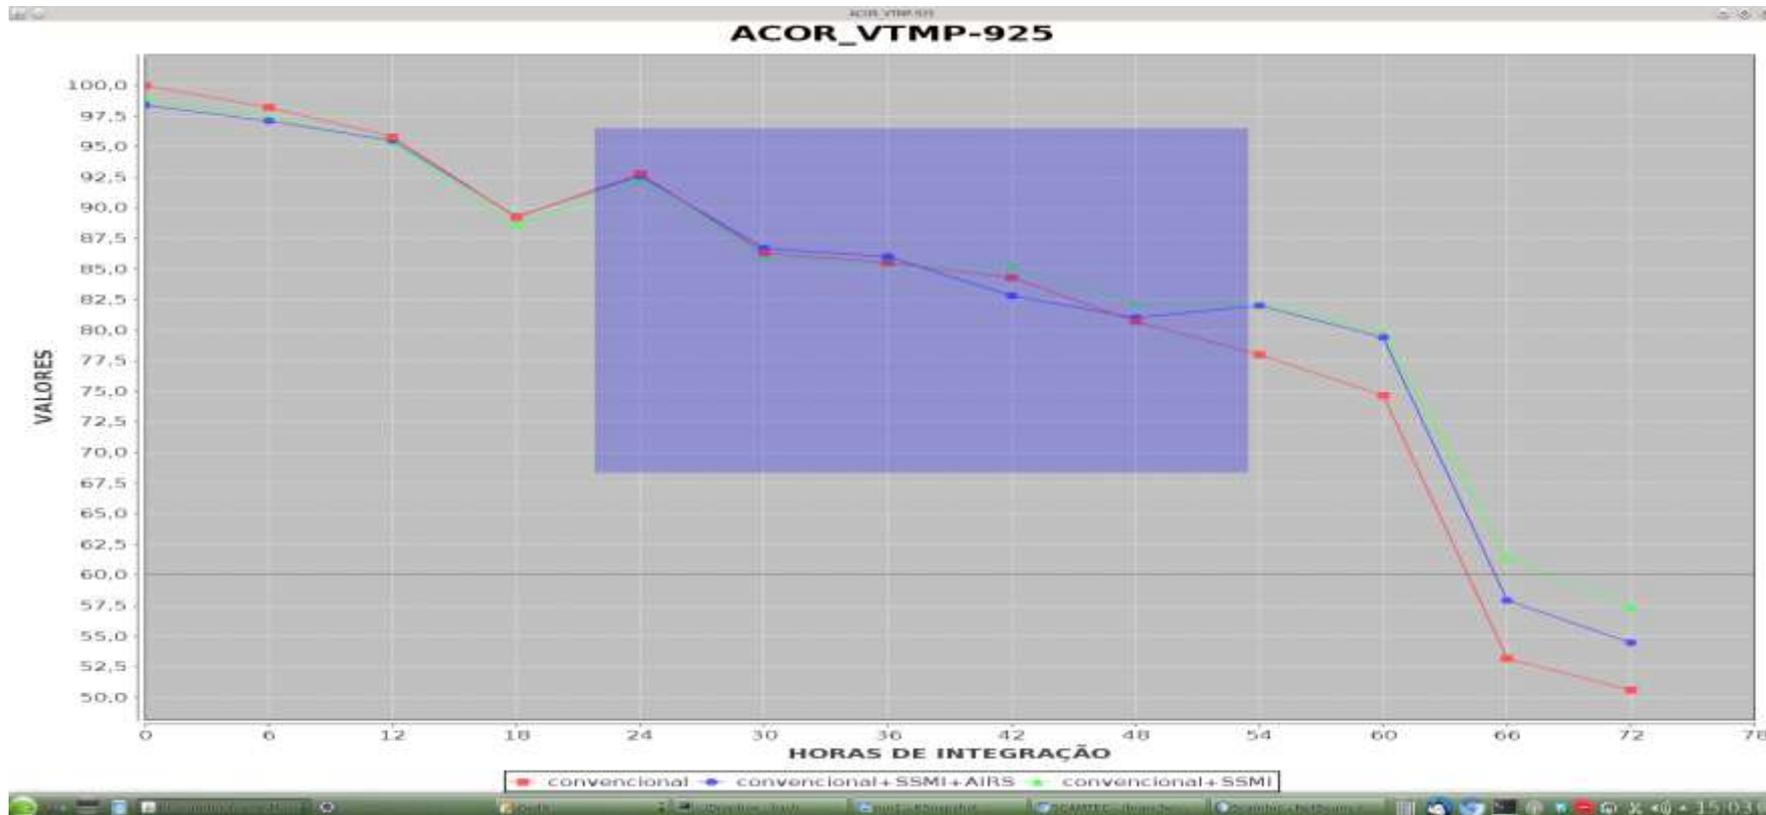

- Projeto – Interface Gráfica (Java Swing)

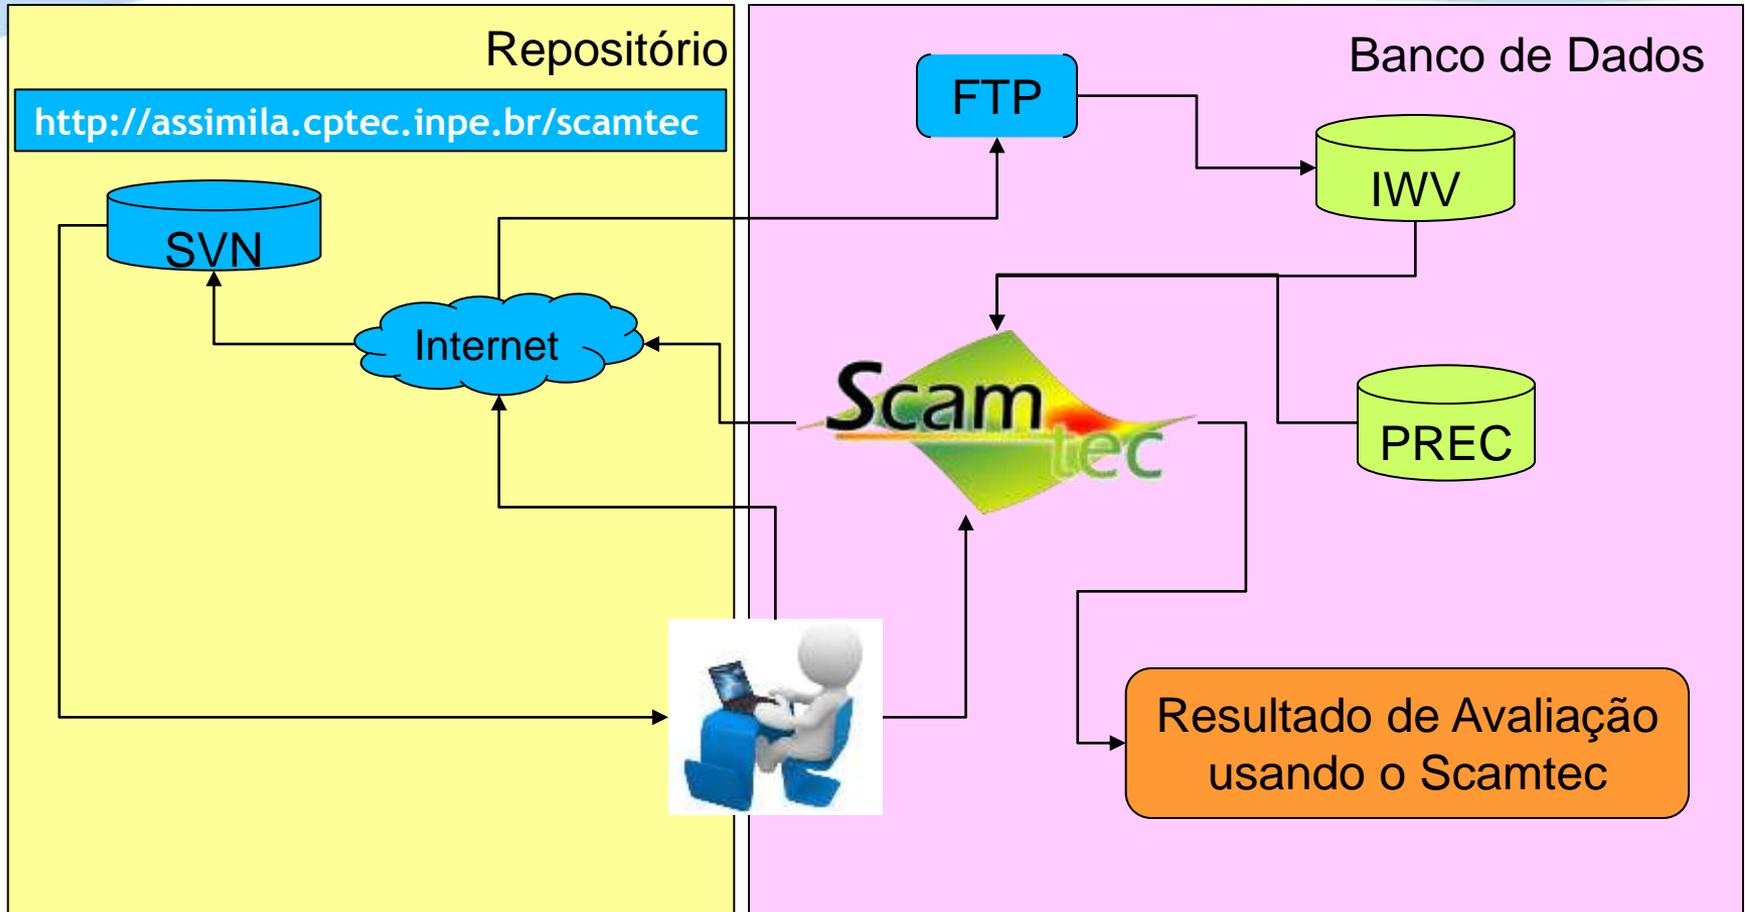

Interface gráfica do SCAMTeC. As opções do avaliador de modelos são feitas através de botões com a possibilidade de editar manualmente as configurações.

- Projeto – Interface Gráfica (Java Swing)

Interface gráfica do SCAMTeC. Permite gerar gráficos dos resultados, permitindo ao usuário dar um zoom ou editar as dimensões dos eixos.

- Ferramenta tem potencial para contribuir em pesquisas e na operação
- Colaboração é um ponto essencial
- Projeto pode proporcionar perspectivas de desenvolvimento contínuo (futuro)
- Aplicação simples e funcional

**OBRIGADO**
